

Bourbon Whiskey Finished in Rye Whiskey Barrels

Our Cask House Triple Oak Bourbon is blended from several bourbons of different sources and up to 8 years old. Hand-picked by our lead taster for their soft, caramel tones, these bourbons are combined for a deep, rich flavor profile which will pick up a hint of spice during our Triple Oak aging process.

The Triple Oak Process:

1. The bourbons selected for Cask House are aged separately in their original barrels
2. We then blend these spirits and put them back in the barrel to allow the flavors to mingle
3. We finish Cask House in rye whiskey barrels of differing ages, giving our bourbon a unique peppery kick at the end

Our Cask House Rye was rated by Tastings.com as a Silver Medal "best buy" at \$19.99!
